New claims 19 and 20 recite that the engine is free to pivot during operation which is neither disclosed nor suggested by the cited references and are thus properly allowable. Notably, the *Heidrich* pivot mounts permit the engine to be pivoted up on the support frame for servicing without removing it from the frame. Some of the longitudinal frame members may be removable to facilitate pivoting of and access to the engine. This is not during engine operation.

Please charge \$86 to Deposit Account No. 50-1482, in the name of Carlson, Gaskey & Olds, for one additional independent claim. If any additional fees or extensions of time are required, please charge to Deposit Account No. 50-1482.

Applicant respectfully submits that this case is in condition for allowance. If the Examiner believes that a teleconference will facilitate moving this case forward to being issued, Applicant's representative can be contacted at the number indicated below.

Respectfully Submitted,

CARLSON, GASKEY & OLDS, P.C.
